oops, you're right, the draft ESD would be included.

All other assumptions are good. More specifically, with regard to posting on the web, we'd like the AR index (and ability to read each document, correct?) posted on the harbor web site, under Technical Documents/Regulatory Documents.

Thanks - Dave

Dave,

And I assume there will also be a Draft ESD in the collection?

Also, to confirm our discussion:

you intend to have (if everybody meets their deadlines) to have the last documents by noon on Monday 6/21

if we can get the AR CD burned by 10 AM on Thursday 6/24, you will hand-deliver it to the repository

if we cannot get the CD burned by that time, it will be delivered via UPS overnight for delivery on the morning of 6/25

You want to have the AR index posted to the NPL Pad page with links to all documents in the AR (as with other New Bedford ARs) - we will aim to have this up by Friday 6/25

Thank you.

Thanks Christopher - this matches up fine with my list. I think we'll only have three other documents:

1. a one-page email dated 4/18/08
2. the public notice
3. the guidance document I just sent.
